EDUCATION

Yenepoya Institute of Technology, Mangalore
B.E. in Artificial Intelligence and Machine Learning
CGPA: 7.2 / 10.0

Sep 2022 – May 2026

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, TypeScript, SQL, HTML/CSS

Frameworks / Tools: React.js, Tailwind CSS, Vite, shadcn-ui, FastAPI, LangChain, Git, WebRTC, Power BI, Browser Extension APIs

AI/ML APIs: Google Gemini, OpenAI, Anthropic

Databases: MongoDB, PostgreSQL

Platforms: Linux, GitHub, Microsoft Azure, Google Cloud Platform

EXPERIENCE

Internship – Python, Deep Learning, Neural Networks & AI Training, Contriver (bengaluru) Jan 2026 – Present

- Receiving hands-on training in Python, Deep Learning, Neural Networks, and applied AI concepts.
- Working on practical AI exercises and real-world problem-solving tasks.
- Learning model development workflows, data handling, and deployment fundamentals.
- Collaborating with mentors and peers during training sessions and project activities.

Founder / Builder – I Hate PDF (Startup)

2025 – Present

- Building an AI-powered PDF platform with document conversion, AI chat, and research paper generation.
- Developed full-stack architecture using React, FastAPI, MongoDB, and LLM APIs.
- Implementing referral-based growth and monetization using credits and premium tools.
- Managing product development, deployment, and user engagement as a solo founder.

PROJECTS

AI Website Generator (Completed)

Jul 2025

React, Tailwind CSS, FastAPI, MongoDB, Gemini, OpenAI, Anthropic

- Built a full-stack platform that generates complete websites from text prompts using multiple LLMs.
- Integrated real-time previews and one-click website download.

Campus Connect (Final Year Project – Completed)

2025

React, TypeScript, Vite, Tailwind CSS, FastAPI, MongoDB

- Developed a full-stack campus management system with AI chatbot for student queries, resources, and events.
- Built Python backends for course info, study materials, and dynamic exam hall allocation.

AI Coding Helper Extension

Aug 2025

JavaScript, HTML/CSS, Browser Extension APIs

- Created a browser extension to generate code snippets on demand using generative AI.

Smart PDF Chat

Nov 2024

Python, LangChain, React.js, PostgreSQL

- Built a chatbot to answer queries from uploaded PDFs using LangChain and React UI.

Proctored Exam Tool

Oct 2023

Python, JavaScript, React.js, WebRTC

- Designed an online exam platform with live video proctoring and ML-based anomaly detection.

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals

Google Cloud: Generative AI Concepts

Microsoft Learn: Introduction to AI and ML

Microsoft Learn: Generative AI Concepts (Jun 2025)

Microsoft Learn: Machine Learning Concepts (Jun 2025)

Microsoft Learn: Azure AI Services (Jun 2025)

Analytics Vidhya: Guide to Vibe Coding in Windsurf (Aug 2025)

IIT Bombay Spoken Tutorial: Git (May 2025), HTML (Feb 2024)

Great Learning: Linux Tutorial

Rapid Development for AI Services – Yenepoya Institute of Technology (2025)

LEADERSHIP

Secretary – Yen-Artificia (AI/ML Association)

Organized technical workshops and events for 100+ students.

Event Coordinator – UnScramble 2.0 Hackathon & Yen Sambhrama Fest

Managed logistics and coordination for university technical and cultural events.
